WATER DEPARTMENT

## IMPORTANT NOTICE: LEAD SERVICE LINE INVENTORY RESULTS

The City of Rockaway Beach has completed a comprehensive inventory of its water distribution system as part of the EPA's Lead & Copper Rule revisions, effective December 16, 2021. We are pleased to inform you that no lead-based service lines were found within the system.

To ensure accuracy in the inventory process, we employed a variety of identification methods, all of which are approved by the Oregon Health Authority (OHA):

- **Direct Physical Inspections:** City staff assessed service line materials during regular tasks such as re-reads, turn-ons, turn-offs, and when responding to service leak reports.
- **Extensive Records Review:** We analyzed historical service line and construction records.
- **Predictive Modeling:** Using statistical and random sampling methods, we verified line materials throughout the system.

If you have any questions, please contact Dan Emerson, Public Works Superintendent, at (503) 374-0586 or by email at [publicworks@corb.us](mailto:publicworks@corb.us).

Thank you for helping us maintain a safe and reliable water distribution system.
