New Risks to Manage

- Maintaining this position is becoming more challenging by the day.

Risk Category	Description	Takeaways
1. Extreme Winter Storms	<i>A changing climate is driving new weather extremes, with winter snow and ice storms causing unprecedented levels of damage.</i>	<ul style="list-style-type: none"> • Mitigating the impacts will require much higher levels of investment • Despite our best efforts, extended outages will still occur • We need to help citizens be prepared for real threats to life and safety
2. Wildfires	<i>The risk of wildfires has created a “second storm season” with threats to public safety and utility financial health.</i>	<ul style="list-style-type: none"> • Mitigating the impacts will require continued high levels of investment • Utilities have different liability profiles but none of us can rest easy • We’re doing everything we can but it’s impossible to reduce the risk to zero • Consequences may include bankrupt utilities, higher rates, less reliability
3. Power Supply Deficits	<i>The region’s power supply system is inadequate for the rising level of electricity demand.</i>	<ul style="list-style-type: none"> • Demand for electricity is increasing rapidly; regional supply is running short • Resource shortages have already led to forced outages; these will continue • We are losing baseload resources faster than we are adding replacements • New resources tend to produce intermittently, adding volatility and risk

Extreme Winter Storms

- Tillamook County has faced ice and snowstorms at unprecedented rates
- Windstorms with windspeeds of 60 mph+ is the norm
- Trees and branches from outside utility easements and right of ways continue to be the major cause of outages in these storms
- Our distribution system has stood in the same place for 80+ years
- Rarely have we seen the level of destruction brought about by these recent events

Extreme Winter Storms: Mitigation

- Mitigation starts with aggressive tree trimming and vegetation removal
- We're also making capital investments (hardier construction; undergrounding)
- Ultimately, some extended outages are going to be unavoidable
- Helping customers with emergency preparation is key
- This is particularly important in rural communities without many resources
- 3 of 4 transmission lines serving the county were out of service during the holiday windstorm in December 2024

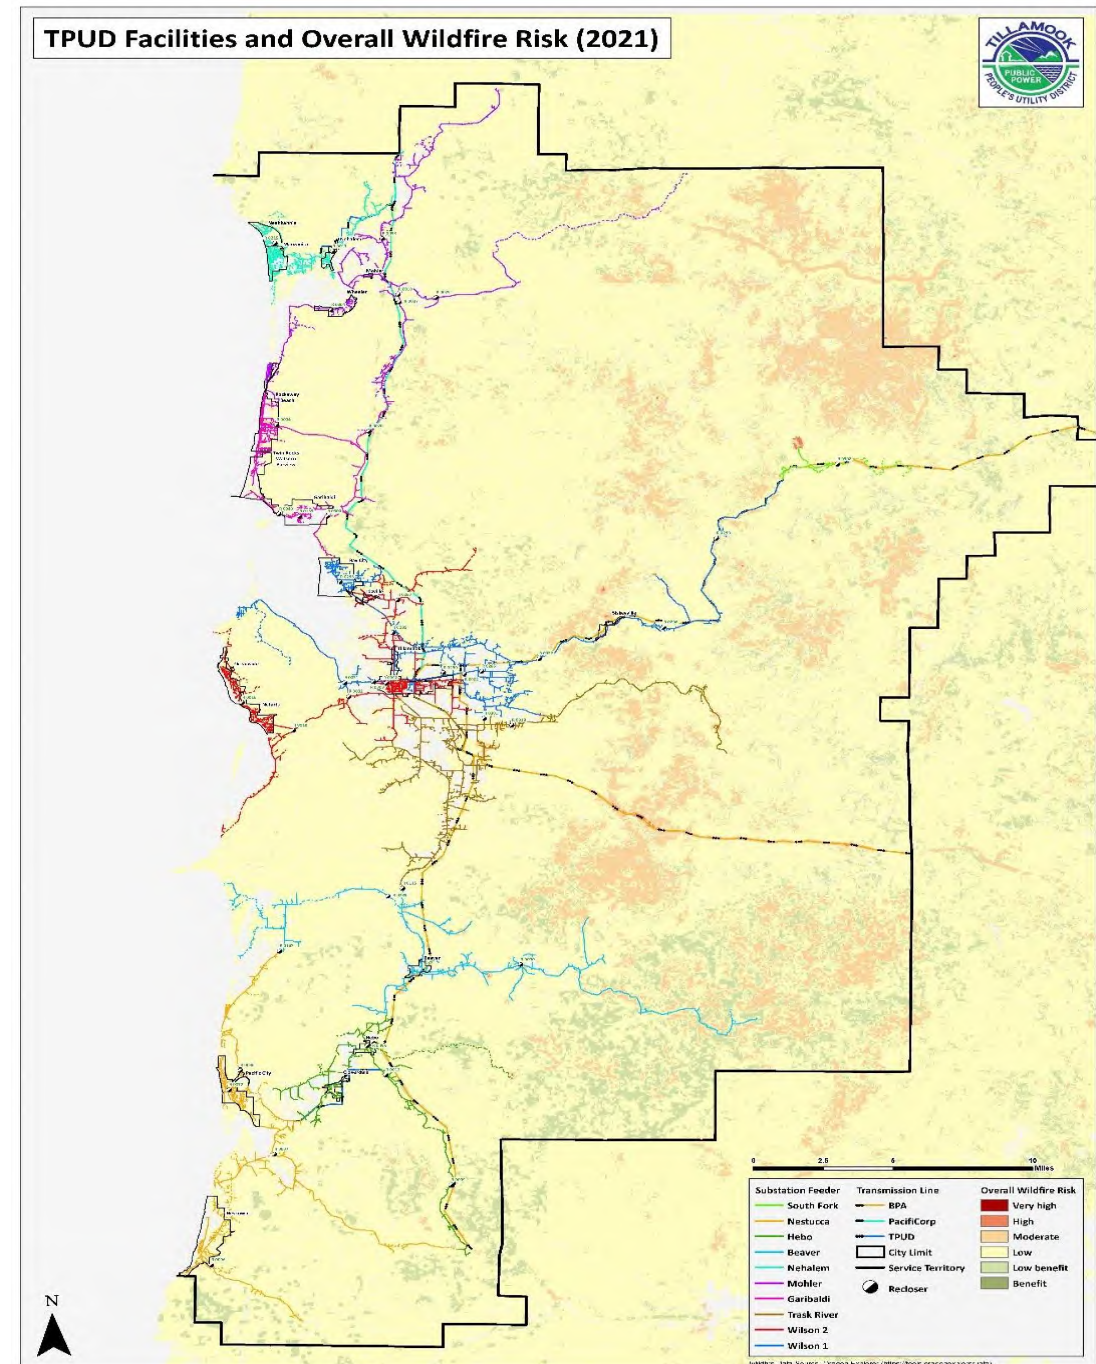

Wildfires

- The threat of wildfires is a near constant from April - October
- Currently in Oregon there is no uniform, agreed upon standard of care
- Utilities face different liability profiles but none of us can fully mitigate this risk
- There are only so many tree trimmers and we don't have unlimited budgets
- Consequences may include bankrupt utilities, higher rates, and lower reliability
- Public Safety Power Shutoffs will become more frequent

Wildfires: Mitigation

- We operate our system at varying levels of sensitivity based on weather conditions
- We are also aggressive with tree trimming, including partnering with our customers
- We haven't had one yet, but do have a process for Public Safety Power Shutoffs
- ***There is no foolproof solution***
- Utilities can do everything right and still face liability

Power Supply Deficits

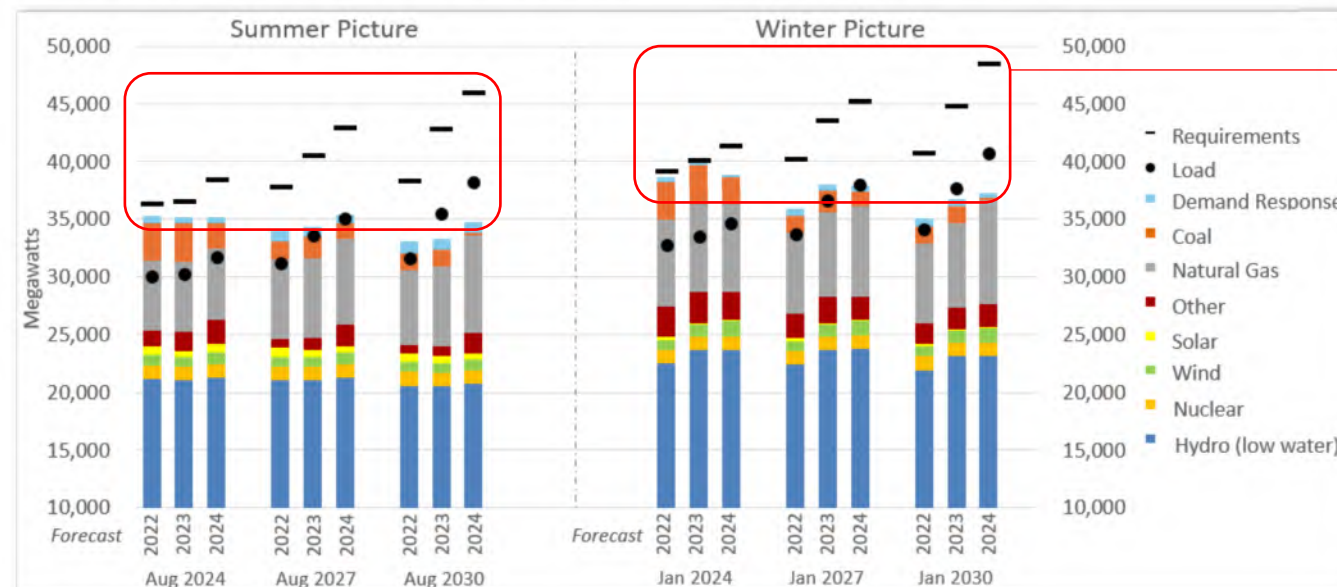

- Finally, the Northwest is facing growing power supply deficits
- Demand for electricity is increasing substantially
- At the same time, critical baseload resources are being removed
- The only current replacement options are variable in nature (wind and solar)
- This is creating a much more volatile regional power supply system
- The inevitable result is lower reliability and much higher cost

Northwest Regional Forecast (PNUCC)

Northwest Regional Forecast predicts more than 30 percent regional electric demand growth possible by 2033

Figure 7: 2024 Load and Resource Forecast Compared to 2023 and 2022

Power supply deficits exist now and will get worse in the future

NW Resource Changes (2018-2023)

- ~3,000 MW of coal replaced by ~3,000 MW of wind and solar
- *From*: firm baseload capacity (**supply is there when we need it**)
- *To*: non-firm, near-zero capacity (**supply is not there when we need it!**)

PGE wins approval for largest rate increase in two decades

Updated: Nov. 03, 2023, 11:41 a.m. | Published: Nov. 03, 2023, 6:00 a.m.

“PSE/PGE will likely need annual double-digit retail rate increases for the next 5-7 years. They will probably double their rates (from present 11-13 cents/kWh levels) by the early 2030s – and will likely produce a significant political reaction.”

Power Supply Deficits: Mitigation

- Policymaking must keep in mind all three pillars:
- Affordable, Reliable, Environmentally Responsible
- A single-minded focus on one puts the others at risk
- Maintaining baseload resources that generate on-demand is critical
- These include hydroelectricity, nuclear, and natural gas
- It's also imperative to keep the focus on commercially available technology

CITY OF ROCKAWAY BEACH, OREGON
ORDINANCE NO. 2025-01

AN ORDINANCE AMENDING ROCKAWAY BEACH CODE OF ORDINANCES
SUBSECTION 34.15(A), CLARIFYING THE USE OF TRANSIENT LODGING TAX
REVENUE

RECITALS:

1. The Rockaway Beach City Council wishes to update Rockaway Beach Code of Ordinances (Code), Subsection 34.15(A) to clarify the allocation of Transient Lodging Tax (TLT) funds to promote tourism.
2. The intent of this Code clarification is not to adjust the percentage of TLT revenue that supports tourism promotion, but instead clarify the historical use of this revenue for the broad category of tourism promotion as defined under applicable state law.

Now, therefore, the City of Rockaway Beach ordains as follows:

Section 1. The City of Rockaway Beach Code of Ordinances, Subsection 34.15(A), is hereby amended to read as shown in attached Exhibit A.

Section 2. Severability Clause. A determination of invalidity or unconstitutionality by a court of competent jurisdiction of any clause, sentence, paragraph, section, or part of this ordinance shall not affect the validity of the remaining parts to this ordinance.

Section 3. Effective Date. This ordinance shall become effective 30 days after its adoption by the City Council and approval by the Mayor.

PROCLAMATION

FIREFIGHTER RECOGNITION MONTH

City of Rockaway Beach residents benefit from the selfless service of our highly trained firefighters, and each of us has a greater sense of security knowing they are well prepared to combat fires and the destruction which they can bring.

Firefighters face immeasurable risk every time they answer the alarm and speed off to fight a fire, or an emergency medical call where the risks can never be adequately known.

The proud men and women who become firefighters perform an immensely important public service in saving lives, protecting property, and promoting community values.

Firefighters in the City of Rockaway Beach exemplify the highest level of public service, both by their selfless bravery but also by their commitment to professionalism through frequent training and re-training.

We wish to acknowledge the Oregon firefighters, including Rockaway Beach Firefighter Ryan Boos, who responded to the recent devastating wildfires in Southern California, following a long line of tradition and honor that inspires them to help colleagues, neighbors, and strangers alike.

This occasion also provides our elected leaders an opportunity to celebrate the day-to-day heroism of all firefighters serving Rockaway Beach, as all Rockaway Beach residents join to express gratitude to the remarkable people who wear the firefighters' uniform.

NOW, THEREFORE, I Charles McNeilly, Mayor of Rockaway Beach, a municipal corporation in the County of Tillamook, in the State of Oregon, on behalf of the City Council, do hereby proclaim February 2025 to be:

FIREFIGHTER RECOGNITION MONTH

IN WITNESS WHEREOF, and with the consent of the City Council of the City of Rockaway Beach, I have hereunto set my hand on this 12th day of February 2025.

Charles McNeilly, Mayor

STAFF REPORT

Date: February 6, 2025
To: City Council
From: Melissa Thompson, City Recorder
Subject: Typographical Error in Resolution 2024-41 Adjusting Appropriations

ISSUE STATEMENT

This is to notify the City Council that staff discovered a typographic error (also known as scrivener's error) in Resolution No. 2024-41 Adjusting Appropriations for the 2024-2025 Fiscal Year Budget for sound amplification equipment.

BACKGROUND

The General Fund revised Contingency figure was originally indicated as \$329,848. The correct figure is \$327,848. The resolution correctly indicated a \$6,000 increase to the Administration Department and \$6,000 decrease to Contingency.

REQUESTED ACTION

Since the intent of the resolution clearly indicates the \$6,000 decrease in Contingency, Council reapproval is not necessary.

A corrected copy of Resolution 2024-41 has been added to the agenda packet for the Mayor's signature. The City Auditor was consulted and concurred with this action.
